(250) 631-7312 | norugie015@gmail.com | norugie.me

OBJECTIVE

To broaden my professional experience in software and web development while being an asset to the objectives of your organization.

EXPERIENCE

Web Developer (Shared Services) | Coast Mountains School District 82

Terrace, BC, Canada | October 2022 – Current

- Developing the new district website for Coast Mountains School District 82 through its shared services with School District No. 92 (Nisga’a).
 - The new website features a Custom Management System integrated with Azure AD using the Laravel framework, MySQL, and Microsoft Graph.

Help Desk Technician/Web Developer | School District No. 92 (Nisga’a)

New Aiyansh, BC, Canada | January 2018 – Current

- Managed support actions and requests using OSTicket system.
- Provided district-wide technical support.
- Streamlined processes with Microsoft Office 365 suite and Azure AD.
- Developed and maintained the websites for SD92 with a custom Content Management System integrated with Azure AD using PHP, MySQL, and Microsoft Graph.
- Developed and maintained an HR web app for SD92, integrated with the district’s Active Directory and Azure AD, using the Laravel framework, MySQL, and Microsoft Graph.

Webmaster | Gitga’at Development Corporation | Gitga’at First Nations Treaty

Hartley Bay, BC, Canada | March 2021 – May 2021

- Handled site migrations for the websites for Gitga’at Development Corporation and Gitga’at First Nations Treaty.
- Worked with Google Admin Toolbox while handling migration for the website for Gitga’at Development Corporation, resolving mailing issues and increasing site performance.
- Worked with WordPress and WordPress plugins, providing web security upgrades, increased performance and SEO, custom functionalities, and web maintenance.

Administrative Assistant/IT Support | Mabalacat City College

Mabalacat City, Pampanga, Philippines | May 2017 – November 2017

- Prepared meeting minutes and memorandums.
- Provided department-wide technical support.
- Lead the development of MCC Reports Management System using PHP and MySQL.

Front End Developer | TORO.io

Clark Special Economic Zone, Pampanga, Philippines | May 2016 – August 2016

- Used Apache Velocity, JavaScript, and TORO.io’s available in-house libraries and assets in creating dashboards, landing pages, and widgets for their builder app.
- Experienced using Jira and BitBucket to communicate updates and issues with given tasks.
